

Qualitative examples: pipeline input/output on TIMSS AU1 (Exterior Angles)

Bin 5:00-5:30 → FRICTION

Transcript excerpt (input):

"No matter what the size of the angles are, if you have a five pointed star inscribed in a circle it will be 180° ."

Heuristic annotator (output):

Quality: Low quality Move: Other

Direct fact-telling pattern flagged

ELECTRA annotator (output):

Quality: Low quality Move: No Move

No recognized talk move

Bin 21:30-22:00 → FRICTION

Transcript excerpt (input):

"Yeah, that's good. You can make it a bit bigger, but it should click on. Just make sure they join."

Heuristic annotator (output):

Quality: Low quality Move: Pressing for Accuracy

Corrective pressure: "just make sure..."

ELECTRA annotator (output):

Quality: Low quality Move: No Move

No recognized talk move

Bin 10:30-11:00 → DISAGREEMENT

Transcript excerpt (input):

"Any two-D shape. So... would that be a polygon? Oh, that's enclosed. Many-sided shape... oh, straight."

Heuristic annotator (output):

Quality: Unknown Move: Pressing for Reasoning

Question present; no low-quality keyword

ELECTRA annotator (output):

Quality: High quality Move: Pressing for Reasoning

Student reasoning elicited
